Location: Dhaka, Bangladesh

PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with a Diploma in Computer Technology and academic grounding in computer networks, operating systems and cyber security. During a Digital & Technology internship at Aramex Dhaka Ltd., worked alongside IT staff on end-user support, Windows-based device preparation, physical network connectivity and technical documentation. A three-semester technical capstone adds evidence of structured testing and systems integration for entry-level IT, network and technical support roles.

TECHNICAL SKILLS

NETWORKING & INFRASTRUCTURE
Computer networks and data communication (coursework) • LAN concepts • Cat6 desk patching • Patch panels and port labels • Ethernet switches, routers and wireless access points (fundamentals) • Cisco Packet Tracer

TECHNICAL SUPPORT
Windows setup • PC assembly • Basic hardware/software fault isolation • Printer and peripheral support • End-user assistance • Equipment records and documentation

TOOLS & DEVELOPMENT
Microsoft Excel, Word and PowerPoint • Microsoft 365 applications • GitHub • PHP • MySQL/SQL • HTML • CSS • JavaScript

PROFESSIONAL EXPERIENCE

DIGITAL & TECHNOLOGY INTERN

Jun 2026 – Sep 2026

Aramex Dhaka Ltd. | Dhaka, Bangladesh

- Assisted Digital & Technology staff with the office IT relocation, including supervised rack and server handling, equipment placement and physical reconnection; removed assigned IP cameras and attendance hardware.
- Connected Cat6 workstation links and matched outlet labels to recorded ports; assisted with physical patching and placement of routers and HPE Aruba access points.
- Supported customers with online profile registration, email verification and business account linking; documented interactions and produced a reusable screen recording to explain the process.
- Operated the Canon multifunction printer and followed basic checks for device, print queue and connection issues; entered approved users in Fastface 5 under supervision.
- Assisted with a Windows 11 and Office 365 laptop preparation assignment; documented licensing, verification and handover considerations.
- Reviewed asset and network connection records, highlighting incomplete port mappings and areas needing physical verification or follow-up.

PROGRAM INTERN

Feb 2020 – Mar 2021

Jamuna Television | Investigation 360 Degree

- Worked with the Investigation 360 Degree program under its editor, developing communication, coordination and structured reporting in a deadline-driven media environment.

EDUCATION

B.Sc. in Computer Science and Engineering 2026
University of Liberal Arts Bangladesh (ULAB)
CGPA 3.18/4.00

RELEVANT COURSEWORK Computer Networks • Computer Networks Lab • Cyber Security • Data Communication • Network Security • Operating Systems

Diploma in Computer Technology 2021
Daffodil Polytechnic Institute
CGPA 3.56/4.00

SSC (Science) 2016
Badsha Faisal Institute
GPA 3.33/5.00

TECHNICAL PROJECTS

CAPSTONE RESEARCH

Automated Data Flow Diagram Understanding
University of Liberal Arts Bangladesh | 2025 – 2026

TOOLS EasyOCR • fine-tuned Qwen2.5-3B • YOLO11 • structured JSON • Gradio

- Contributed to planning, testing and documentation for a three-semester pipeline integrating OCR, language-model and object-detection components into structured diagram output.
- Project evaluation: 96.9% micro F1 for node extraction/classification and 90.7% F1 for arrow-region extraction on the DFD evaluation set.

SkillSwap | PHP, MySQL, HTML, CSS

- Collaborative PHP/MySQL tutorial project with profiles, keyword search, messaging and feedback. Peer skill matching and session scheduling are proposal-level features, not verified implementation.

Quiz Web Project | PHP, SQL, HTML, CSS, JavaScript

- Built a database-backed quiz application with user accounts, quiz creation and joining flows, and dashboard pages.

ADDITIONAL INFORMATION

LANGUAGES Bangla (native); English (working proficiency)

DRIVING LICENCE BRTA non-professional; light vehicle and motorcycle
